

FFOLKES Unlocks mod v1.10

1. Must own a legal copy of Battlefield 2142 and have it installed.
2. Must have v1.10 patch installed.
3. Unzip FFOLKES_2142_Unlocks_v1.10.zip to folder on your desktop.

The zipped file contains the following:

- ☐ FFOLKES_Unlocks_v1.10.exe (Contains the Unlocks_v1.10 mod only)
 - ☐ Instructions.pdf
 - ☐ Kit_Descriptions.pdf
 - ☐ ServerSettings.con (Included my version if you don't want to edit)
4. Install FFOLKES_Unlocks_v1.10.exe by double-clicking the executable file.
 5. The install program will launch and copy the Unlocks_v1.10 mod to your Battlefield 2142 mods folder directory.
 6. The install program will attempt to create a desktop shortcut pointing to the Unlocks_v1.10 mod. You may need to create or edit the shortcut in case the installer fails to read from the Registry the correct path to Battlefield 2142.

The easiest way is to copy the default BF2142 desktop shortcut, rename the new shortcut, right click the shortcut, choose properties, and update the Target line.

For example:

Retail version

"C:\Program Files\Electronic Arts\Battlefield 2142\BF2142.exe" +menu 1 +modPath mods/Unlocks_v1.10

EA Link version

"C:\Program Files\Electronic Arts\Battlefield 2142\BF2142Launcher.exe" +menu 1 +modPath mods/Unlocks_v1.10

NOTE: You are at your own risk if you make any change to the Unlocks_v1.10 mod or bf2142 mod files or folders.

FFOLKES Unlocks mod v1.10

NOTES:

1. This mod will **not** affect your BF2142 mod, any other installed mod, or on-line gaming since it is installed to its own folder.
2. This mod allows you to play the default BF2142 Single-Player/Co-op maps and any custom BF2142 map with all the unlocked weapons, tools, upgrades, and abilities.
3. To install a custom BF2142 map just download, extract, and copy the custom map folder into the ...\mods\Unlocks_v1.10\Levels folder.
4. In game use your mouse wheel scroll or keys 1-9 to select/deploy a weapon or tool.

To select the Beacon you must use your "cycle weapon" key (Default is key F) since DICE did not code key indexes greater than 9.

You must be a squad leader in order to use the squad leader unlocks such as the Beacon, Sentry drone, or Recon drone.

5. In order to use the customization screen in Single-Player or local Co-op you must:

- Backup your existing ServerSettings.con file found in Default directory.

C:\Documents and Settings\FFOLKES\My Documents\Battlefield 2142\Profiles\Default

- Edit your existing file with the following changes or use my file:

```
sv.maxPlayers 16 ← change the # of bots your computer can handle
sv.interfaceIP ""
sv.minUnlockLevel 1
sv.maxUnlockLevel -1
```

- Make the ServerSettings.con file Read-Only

FFOLKES Unlocks mod v1.10

6. If you want to increase or decrease the number of bots in your Single-Player game just edit the `aidefault.ai` file found in the AI folder of the Unlocks_v1.10 mod.

For example, if you want to play with 64 bots with expert level then make the following changes.

BEFORE:

```
aiSettings.setMaxNBots 16  
aiSettings.maxBotsIncludeHumans 1  
aiSettings.setBotSkill 0.4
```

AFTER:

```
aiSettings.overrideMenuSettings 1  
aiSettings.setMaxNBots 64  
aiSettings.maxBotsIncludeHumans 0  
aiSettings.setBotSkill 1.0
```

7. If you want to increase or decrease the number of bots in your Co-op game just you have to edit the `ServerSettings.con` file in the default Profile directory.

For Example:

`C:\Documents and Settings\FFOLKES\My Documents\Battlefield 2142\Profiles\Default\ServerSettings.con`

Change `sv.maxPlayers 16` to `sv.maxPlayers 32` (or higher)

Save and make the file read-only. In the co-op options it will still show 16 players but in game there will be 32 (or higher depending upon what you set)

8. The un-install program does work and will remove the Unlocks_v1.10 mod files from your computer. However, if you copied any custom maps or files to the Unlocks_v1.10 mod folder you will have to manually delete the Unlocks_v1.10 mod folder after running the un-install program.

You may also need to manually delete the shortcut on your desktop.

FFOLKES Unlocks mod v1.10

Make sure you post comments/feedback on the BF2142 forums and let all your friends know about FFOLKES Unlocks!

FFOLKES has also created the following Unlock mods for BF2:

- ☐ Unlocks123 mod v1.4.1 for BF2
- ☐ Unlocks678 mod v1.4.1 for BF2
- ☐ Special Forces Unlocks mod v1.4
