

# ONS-3on3-COLOSSAL

## A small scale ONS adventure in technicolour!

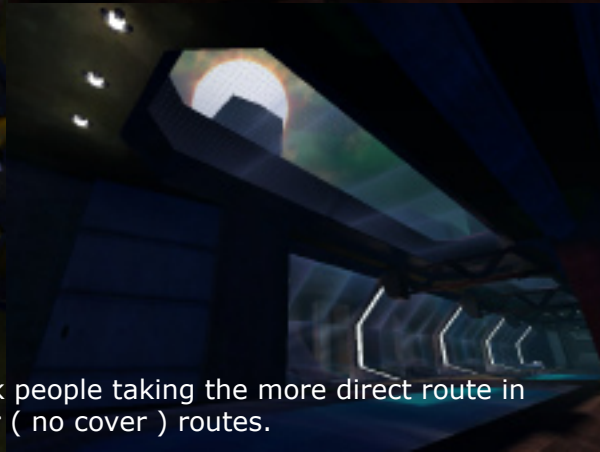

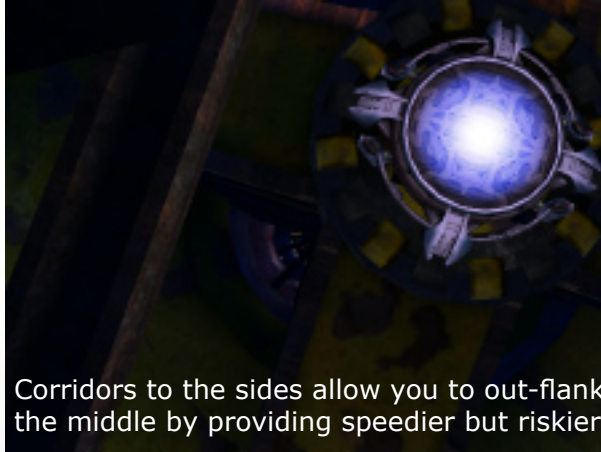

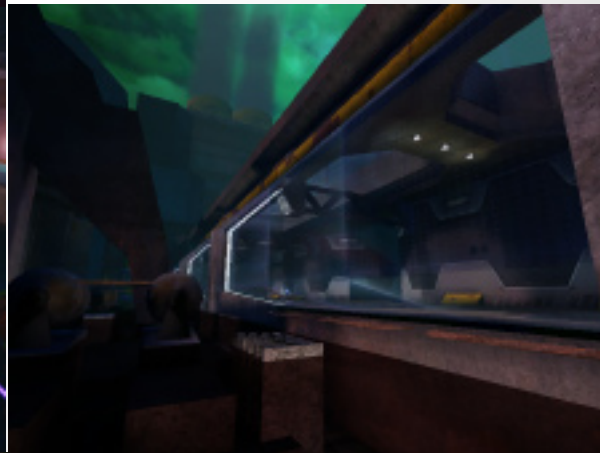

A quick knockaround with stunt scorpions and fast paced, DM style play.

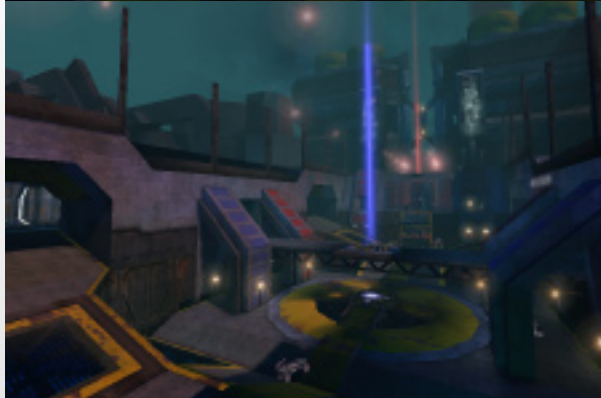

Thanks to WW\_Nihil, Hortons Who, and all the people who replied in the beta threads. You rock! Look out for the graffiti and beware the blitto.

With thanks also to DCLXVI for the awesome soundtrack!

<http://www.sleepofdeath.com> - those guys rock!

Corridors to the sides allow you to out-flank people taking the more direct route in the middle by providing speedier but riskier ( no cover ) routes.
